The game doesn't start anymore I've been playing a few days. worked today. Now it's stuck on the screen splash 12 hours ago General Discussion Guide All Manager Links If you haven't noticed managers' terribly familiar faces and/or names. So I took a break from the grind of making money and decided to explore managers and smart links, so here they are! 5 people found this review useful 0 posted: 29 November Do yourself a favor and never start playing, in case you want all the achievements. It will take forever if you don't want to pay anything. 640 products on the Jarda-zedator zeculule account.:SEE: 1 person found this review useful 0 posted: 26 November Too slow for my taste ... These games should ideally be shorter and allow the player to reach the max points and achievements faster ... Feels like they've done it to provide zero good gaming experience without buying anything and max game exp after buying... 26 products in the account guide How not to be poor in the adventures of capitalist strange glitch dupe. I left my computer on, while I was in the case. After the event, teleport to the ground, with my stats of events, but on earth I still had money, and claim-capable angles. But. The thing is, when I went from Mars to Earth to get out of that glitch status. I'm back on the ground, and I got all the equalization awards, free 100 megalucks and 70 gold... 8 hours ago General discussion hyper Hippo game event FAIL!! - is cheating or glitch as possible that not one but now two players have over a billion points in the case??!!! Some people spend a lot of time invested in your game, just to let some people glitch their way to a light high finish. Well, I'm just wondering if I should keep making an effort in your game or move on to something else. Let me know, okay! ... 10 hours ago general discussion of the launch problem I just download the game and it freeze it can not run I'm trying to restart it will not work I restart my computer it will even order to work, what happened? 28 November and 10:04am General discussion window mode always falls on the run When I try to start the game in window mode it just straight out of crashes and won't start.
